Mumia Abu-Jamal Victories & Historic MOVE Conference

MUMIA: A series of major victories in the past two months in Mumia's case call for review, analysis, and follow up strategy. Mumia is now getting the Hep C meds, and his case has been reopened in the PA courts for possible voiding of the entire PA Supreme Court rejection of Mumia's appeal. If won, a new trial or release would be legally possible. In the meantime, thousands of PA prisoners can now use Mumia's treatment as basis for demanding it for themselves, and PA has ruled that all MEDI-CAID recipients are entitled to the Hep C cure.

MOVE: A historic three-day conference on the MOVE Organization took place in Philadelphia from May 5 through May 7 on the history, ideology, and beliefs of MOVE. MOVE 9 members called in from the PA dungeons where they are being held, more than a dozen members and supporters spoke on their experiences with MOVE, and many lessons were shared that have major implications for movement building strategies.
